SUMMER 2028

CORFU, GREECE

CORFU, GREECE

A New Journeys Collection

From April to November 2028, our Summer 2028 Journeys Collection invites guests to create new stories and lasting memories across 178 destinations.

From the sunlit shores of the Mediterranean to the contrasts of Northern Europe, the untamed scale of Alaska, and the ever-changing colour palette of North America's Atlantic coast, six ships are thoughtfully deployed to reveal each destination through its many nuances.

Longer stays and overnights allow destinations to be experienced more deeply, through the changing light of evening, quieter interludes, and a rhythm more closely aligned with local life. Designed to connect seamlessly, these Journeys may be combined to extend and enrich the experience, offering the freedom to move effortlessly between cultures, landscapes, and identities.

The Mediterranean

In its many expressions

In the Mediterranean, our ships reveal the region's many expressions, distinct yet interconnected, shaped by history, culture, and an ever-evolving spirit.

EXPLORA I traces paths through the Aegean and the Adriatic, where island constellations and sculpted coastlines express a Mediterranean shaped by layered identities.

EXPLORA II brings a vibrant energy to the Italian and French Rivieras, weaving through the Balearic and Canary Islands and along the Atlantic-influenced coasts of Iberia and North Africa. Here, late departures and dual-rhythm Journeys reveal the Mediterranean through shifting perspectives between day and night.

EXPLORA VI INAUGURAL JOURNEYS COLLECTION

EXPLORA VI, the newest addition to the fleet, makes her debut with an Inaugural Journeys Collection revealing another perspective of the Mediterranean.

Sailing along the Italian coast, through the Tyrrhenian and Adriatic seas and into the Balkans, her Journeys weave through Sicily, Sardinia, the Balearic Islands, and along the French Riviera.

Late departures in destinations such as Ibiza, Amalfi, and Porto Cervo invite discovery as each place transitions from day into night, revealing a different rhythm and atmosphere. Along the Adriatic, EXPLORA VI sails beyond Dubrovnik and the Bay of Kotor, towards smaller yet richly textured destinations including Korčula, Trogir, and Sarandë.

Extending into the more reflective months of October and November, she uncovers a rarely encountered side of the region.

FAROE ISLANDS

MAY - OCTOBER 2028

Northern Europe, Iceland & Greenland

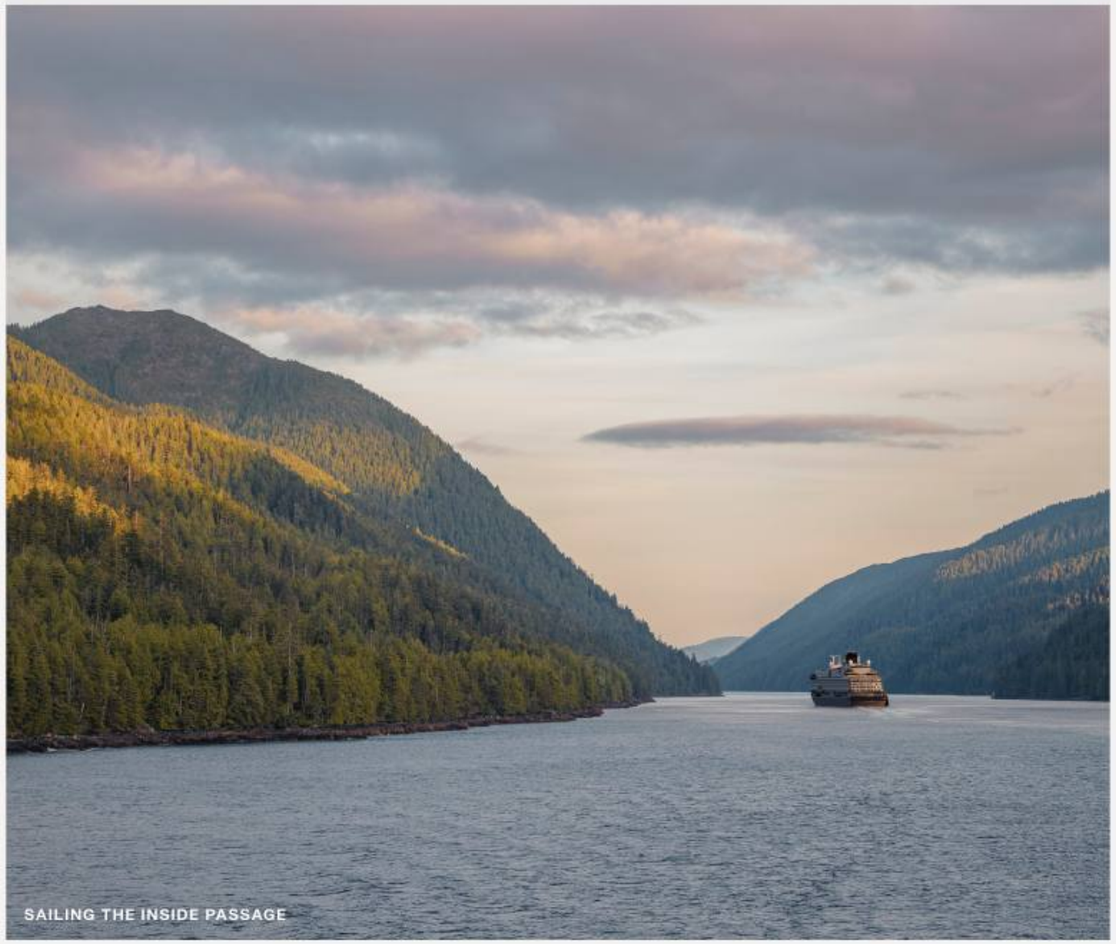

In contrast and depth

Further north, EXPLORA IV and EXPLORA V navigate Northern Europe, Iceland, and Greenland in contrast and depth, where extended daylight softens the sense of time.

Journeys unfold in harmony with extended daylight and the natural rhythm of the season, while remote destinations such as the Orkney Islands — with their extraordinary prehistoric sites — alongside Shetland, the Outer Hebrides, and the Lofoten Islands, offer a more secluded and distinctive perspective.

Across Baltic capitals, Viking shores, Norwegian fjords, remote archipelagos, and Arctic frontiers, elemental landscapes, light, and layered heritage create a sense of quiet intensity and profound continuity between land and sea.

SAILING THE INSIDE PASSAGE

TONGASS NATIONAL FOREST, ALASKA

MAY - SEPTEMBER 2028

Alaska

Where nature sets the pace

In Alaska, EXPLORA III returns to a land where nature sets the pace and remains the defining force. A world shaped by scale and silence; vast, untamed, and elemental.

From the glacier-sculpted fjords of Tracy Arm and Endicott Arm to the immense, slowly shifting face of Hubbard Glacier; from the sheltered serenity of the Inside Passage to the untamed openness of the Gulf of Alaska, each Journey offers a distinct way of experiencing this powerful environment.

Our Journeys are designed to coincide with the region's most compelling season, when the wilderness is at its most vivid, alive, and expressive, offering an immersive encounter with one of the world's last great frontiers.

APRIL-NOVEMBER 2028

United States & Canada East Coast

A transition of light and colour

Along the East Coast of North America, EXPLORA V follows a coastline shaped by a transition of light and colour, as summer gently gives way to autumn.

Here, evolving tones and atmosphere reveal a more reflective expression of place, where coastal culture, maritime heritage, and natural rhythm converge to invite unhurried discovery and deeper connection.
