WELCOME TO THE CARIBBEAN

Blazing sunsets over Technicolor seas, teeming with nearly 700 species of fish flitting among 70 types of vivid coral. Trade winds that skim mountain peaks, breathing softly into lush rainforests. Palms rising out of sparkling white beaches. Ethereal cloud forests that float high above mangrove swamps, cactus scrublands, and vast savannahs.

These are the images travelers to the Caribbean's over 700 islets, reefs, cays, and more than 30 islands carry with them. However, the beauty of these paradisiacal destinations goes beyond stunning aesthetic; gorgeous landscapes and year-round sunshine are only the beginning of this region's allure. To get a true picture of the Caribbean, look past what you see and tap into how you feel.

Close your eyes and focus on the sound of steel drums and pounding feet as pulsing reggae, calypso, and other island rhythms echo through the night. Savor what cuisine spooned from a melting pot tastes like—a blend of African, Spanish, Asian, East Indian and European flavors creating a profile all its own. Let the joy and vibrancy of incredible festivals infuse your soul. Escape to a time and place a world away, with elegant hospitality on romantic estates, or resorts that provide modern luxury at its finest.

Together, these are the true lasting impressions of the Caribbean—the beautiful, unforgettable moments embedded in your mind and heart forever; an indelible mark from the sweetest of escapes.

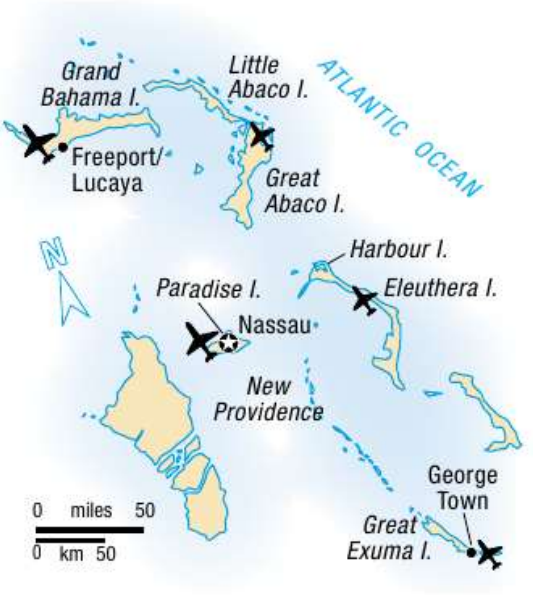

THE BAHAMAS

It's Better in The Bahamas

Only 50 short miles off the coast of Florida, over 700 islands and more cays splay across miles of clear turquoise waters. Some call it paradise, but we know it as The Bahamas. With flamingos in the skies and pods of dolphins in the seas, it only takes a second to relax into the charm of its narrow streets, picket fences, and colorful clapboard houses.

The only thing outnumbering these islands are the reasons travelers love them. Nassau is a cruise ship darling, its two-mile Cable Beach drawing crowds; its international airport is always bustling with visitors headed to nearby Paradise Island and the planet's largest open-air marine habitat. Freeport, Grand Bahama Island, home of the Lucayan National Park and its six-mile-long mapped underwater cave system, is also where the ambiance of a country club merges seamlessly into eco-adventures for all. Of course, the Out Islands offer a more secluded, sheltered experience for vacationers who want to kick back and reset their clocks to island time.

On all the islands, you'll find dockside restaurants serving delectable conch dishes, spectacular diving—including plunges to amazing blue holes—and snorkeling, incredible boating and more … all just steps away from boundless beaches.

DOMINICAN REPUBLIC

Has It All

The island nation of Dominican Republic has become a premier vacation spot for Americans, with the Caribbean's most renowned golf courses; full-service marinas; and, of course, resorts that leave you wanting for nothing. Punta Cana's miles of palm-lined, white-sand beaches and affordable all-inclusives have plenty of loyal devotees, and the luxurious golf and marina community of nearby Cap Cana is hot on its heels. La Romana's quaint Altos de Chavón enclave is an exceptional work of livable art, with shops, a gallery, restaurants, amphitheater, and more perched high above golf courses, polo fields, and a marina. In the capital city of Santo Domingo, modern hotels sit on the same cobblestoned streets conquistador Juan Ponce de León once strode upon. In contrast, head to the northern coastline, where Puerto Plata beckons sun-worshippers to its amber shores and natural harbor; and to the bay and scenic port town of Samana, the destination of choice for thousands of humpback whales each winter.

Sustainable Tourism

Photovoltaic panels have been installed that produce peak power and avoid CO2 emissions. The resort also houses a trigeneration project where, by adding natural gas to the energy supply, electricity, heating, and air conditioning are produced, reducing emissions in electricity consumption and water. This data shows that more than 20% of the Jamaican resort's energy is renewable and it avoids 157.000 kg of CO2 emissions per month. Furthermore, Palladium Hotel Group plans to expand this number of solar panels in the coming years, as well as using other sustainable energies and technologies including natural gas, thermal recovery systems, and the use of geothermal energy. With all of these measures considered, 20% of the global energy consumed in establishments located in six countries has a guarantee of renewable origin, a figure that Palladium Hotel Group hopes to raise to 50% this year.
