EXPLORE WITH NATIONAL GEOGRAPHIC-

Because How You See It Matters

For more than 20 years, the unique collaboration between National Geographic and Lindblad Expeditions has defined modern expedition cruising, connecting travelers with transformative experiences that forge meaningful relationships between people and the planet. Every voyage blends the legendary exploration spirit of National Geographic with Lindblad Expeditions' unmatched 60+ years of expedition heritage.

SMALL SHIPS THAT TAKE YOU FARTHER

With more than 20 expedition and charter vessels, the fleet is among the largest and most varied in expedition cruising. Each small expedition ship was designed to take you deeper into the planet's most remote places, while beautifully designed charters bring you to legendary rivers and historic ports, inviting you to explore them in unique ways.

TRAVEL WITH A WORLD-CLASS TEAM

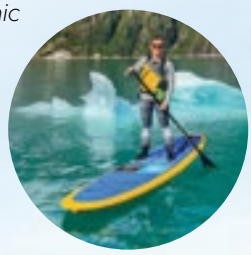

Voyages are led by veteran captains and seasoned guides, with 110+ team members contributing a decade or more of fleet experience.

TAKE GREAT PHOTOS WITH THE PROS

National Geographic Photographers have spent decades traveling the globe, capturing the world's most impactful images. They join select expeditions—and a National Geographic-Lindblad Expeditions certified photo instructor accompanies every departure—to help travelers hone their camera skills in captivating places.

EXPLORE YOUR WAY, EVERY DAY

Itineraries feature a range of immersive activities that bring you into the pages of *National Geographic* magazine. Excursions are included unless otherwise noted, and each expedition offers options for every skill level so that you can explore your way—and at your own pace—every day.

LINDBLAD EXPEDITIONS

REVEALING UNDERSEA WONDERS

On most departures, an undersea specialist brings marine wonders to the surface by capturing and sharing underwater footage. During nightly recaps, the specialist interprets fascinating sea creatures and geological features, offering insights integral to the story of your destination.

INSPIRING THE NEXT GENERATION OF EXPLORERS

The National Geographic Explorers-in-Training program* nurtures the next generation of global stewards in fun and fascinating places. Certified field educators help connect kids with nature in a deeper way, sending them home with a passion for the planet that lasts a lifetime.

**Available on select departures.*

PIONEERING RESPONSIBLE EXPLORATION

The ships in the National Geographic-Lindblad Expeditions fleet are designed to operate efficiently in some of the planet's most remote regions, leveraging nimble design and carefully planned itineraries to reduce environmental impact. Thoughtful choices on board—from eliminating guest-facing single-use plastics to reducing food waste and sourcing locally grown ingredients—help minimize the fleet's footprint while strengthening the communities it visits.

WHAT'S INCLUDED —AND MORE

Everything you need for a complete expedition experience is included—from immersive excursions and engaging talks to meals, alcoholic beverages, onboard amenities, airport transfers, Wi-Fi and more. To further enhance your journey, we also offer a range of optional customizations for purchase, including premium alcoholic beverages, spa treatments, additional excursions, photobooks and handcrafted keepsakes—so you can tailor the experience to your preferences.

BAJA CALIFORNIA

CHANNELING THE WILD MAJESTY OF ALASKA

The dazzling glaciers and fjords that have long made Alaska an icon of expedition travel are just one chapter in the Pacific Coast's story of exploration. Farther south lies another remarkable—and often overlooked—wilderness: Baja California. For more than 45 years, Lindblad Expeditions has been guiding travelers to the marine wonders and desert isles in and around the Gulf of California, famously dubbed "the world's aquarium" by oceanographer Jacques Cousteau.

Orca encounter, Southeast Alaska.

If you've already explored Alaska, or are simply seeking a wild adventure that captures the true spirit of expedition travel, Baja California is an exceptional choice—and it's surprisingly close to home.

Grey whale encounter, Baja California.

Wildlife

The Gulf of California harbors 39% of the planet's marine mammal species and a third of all cetaceans, making for thrilling—and frequent—encounters. Spot breaching humpbacks, flying mobula rays, curious gray whales and super pods of dolphins.

More wild wonders await on shore and in the skies: Nearly a quarter of the peninsula's plant species are endemic, and the remote Isla San Pedro Martir is home to the world's largest colonies of blue-footed and brown boobies.

Immersive Exploration

Several of the fleet's Alaska expedition ships spend the winter in Baja California—they're specially designed to navigate narrow waterways and reach the remote shores that define the wildest parts of both regions.

Venture to rich waters and uninhabited isles to snorkel alongside playful sea lions; paddleboard or kayak through tangled mangroves and hidden sea caves; and hike among red rock canyons, shimmering white sand dunes and deserts filled with wildflowers.

Family Travel

Just as on our Alaska voyages, the National Geographic Explorers-in-Training program is offered on every Baja California departure, making it an ideal destination for families. Itineraries are thoughtfully designed so every generation can engage with the experience in their own way, while still creating lasting memories together.

People and Culture

Baja California's vibrant culture is a fascinating fusion of Indigenous heritage and Spanish legacy. Explore historic missions; admire colonial architecture; experience traditional dance performances; and savor fresh, local seafood dishes.

SHIPS BUILT FOR AWE

GREG MORTIMER
EXPANDING WHAT'S POSSIBLE IN ALASKA

The 154-guest *Greg Mortimer* combines advanced technology with welcoming onboard spaces—all guided by the expedition expertise and operational excellence that have long distinguished National Geographic-Lindblad Expeditions.

An exceptional 8:1 guest-to-staff ratio ensures highly personalized exploration, supported by veteran naturalists, cultural specialists and, on every Alaska departure, two certified photo instructors who provide insight and hands-on guidance throughout the voyage.

Four dedicated Zodiac platforms allow guests to disembark quickly, maximizing time spent ashore, while spacious observation areas, outdoor hot tubs, a panoramic sauna and unique onboard enrichment opportunities make it especially rewarding to settle into the experience.

Combining ambitious exploration with inviting spaces to unwind, the *Greg Mortimer* is designed for journeys where the time between destinations becomes part of the discovery itself.

NATIONAL GEOGRAPHIC VENTURE & NATIONAL GEOGRAPHIC QUEST

The 50-cabin *National Geographic Venture* and her sister ship, the *National Geographic Quest*, are modern, clean-lined and exceptionally maneuverable, able to take you to the remote beaches and quiet inlets of the Pacific Coast with ease.

With twin Zodiac boarding platforms for quick disembarkation, you'll spend less time queuing and more time immersed in nature. Kayaks and paddleboards give you the freedom to explore coastal cliffs and hidden coves, and in places that offer underwater exploration, each guest is outfitted with a full complement of snorkeling gear.

Tiered observation decks provide panoramic views for every traveler—perfect for spotting whales, sea lions and other marine life. During your downtime, enjoy a partially shaded sundeck, a fitness center and a cozy library and lounge with a full-service bar. Regionally inspired cuisine completes the experience, offering a taste of your destination's wild bounty with every bite.

Above: Dining room with floor-to-ceiling windows; spacious Category 3 cabin; comfortable outdoor space for relaxing and wildlife viewing.
